

M4U TW1

POWERFUL, WIRE-FREE SOUND
FOR ACTIVE LIFESTYLES.

Free from the hassle of messy wires, the M4U TW1 True Wireless Earphones let you enjoy powerful sound with deep bass and ultra-crisp details completely unrestrained. Its unique shape and soft rubber material provides a long-lasting fit that is comfortable and lightweight. Connect to any device quickly and easily with Bluetooth®, then use the high-clarity mic and one-touch sensitive button to control volume, skip tracks and answer calls. These high-performance earphones are sweat and weather resistant and have a rechargeable lithium-ion battery that delivers up to 5 hours of listening.

Enhanced Bluetooth® Technology

Using Bluetooth and its advanced A2DP wireless audio technology, the M4U TW1 provides fast and easy pairing with any device, and provides extended range, fewer drop-outs and better battery life. Out of the box the M4U TW1's right and left earphones sync together at the touch of a button, balancing the sound between the left and right channels for an easy setup.

Superior Sound Quality

No matter if you're listening to music, watching videos or talking on the phone, the M4U TW1 is designed to deliver the best sound.

Housing high-performance 6mm drivers, the M4U TW1 pumps out synchronous audio with deep bass and lifelike details. When talking on the phone in noisy environments, the M4U TW1 utilizes its DSP noise reduction technology to block out external sounds and deliver crystal-clear call clarity.

Touch & Tap Controls

With a touch-sensitive button and built-in HD mics on each ear piece that allow you to answer phone calls, control your music and adjust the volume, the M4U TW1 works seamlessly with Bluetooth devices. Everything can be controlled without ever taking out your phone. For added hands-free convenience, the M4U TW1 will notify you when you're paired to a device or running low on battery using voice prompts.

Innovative Stay Fit Design

Using a unique earhook design combined with a set of soft and comfortable silicone ear tips, the M4U TW1 allows you to customize its fit to stay put while running, biking or at the gym. Its IPX5 water-resistant body and internal nano-coating provides a double layer of protection so you can focus on your music while in the rain or sweating it out during a workout.
